## CHRISTMAS AT McCLURE'S

### DON'T WORRY

#### —ABOUT— WHAT TO BUY

For months we have been making preparations for this holiday business. It is a perplexing question with all of us as to what to buy for a Christmas remembrance—hard to think what this friend would like, or that one. A visit to McClure's will probably help you to unconsciously solve this problem. Whether it does or not, the beauty of the goods and the variety of things shown will make the time spent here very enjoyable. After an hour here we think you will be equally as enthusiastic about the beauty of the display as we are, and we want every person in Frankfort, whether you want to buy or not, to visit our store within the next few days.

Early selections afford the greatest choice. We will keep for you anything you may buy now and deliver it any where in town you may wish at any time between now and Christmas day.

A lazy liver makes a lazy man. Burdock Blood Bitters is the natural, never failing remedy for a lazy liver.

### AGED AND BELOVED LADY BADLY HURT.

Mrs. R. M. Aldridge was going hurriedly home one evening last week, and inadvertently stepped in a hole left in the pavement by having a tree cut down, and was dashed to the ground, badly bruising herself, in so much that she has been confined to bed and has suffered intensely since. Luckily no bones were broken. A trained nurse and her daughter, Mrs. F. V. Gray, and granddaughter, Miss Mary Gray, are nursing her.

### LUNATIC ARRESTED.

James Lewis, a well known colored man, was arrested, on Thursday, by Officer Z. T. Thomason, as a lunatic. He will be sent to the asylum.

### STATE DEMOCRATIC COMMITTEE CALLED.

Chairman Lewis McQuown has called a meeting of the State Democratic Committee for Wednesday, December 21, in this city, to consider a number of important matters.

### SLIGHTLY OFF.

Our friend of the Kentucky Journal, in its yesterday's issue, states that it is probable that a motion will be made by the Commonwealth's Attorney for a rehearing in the Powers case, and goes on to state that Judge Cantrill would sit in the case, if the petition should be granted.

We guess he must have forgotten that no judge, who has tried a case in the circuit court, can sit in the same case if it should be appealed. Judge Cantrill has already tried that case twice, so he is disqualified to sit in the Appellate Court.

### STARTLING EVIDENCE.

Fresh testimony in great quantity is constantly coming in, declaring Dr. King's New Discovery for Consumption, Coughs and Colds to be unequalled. A recent expression from T. J. McFarland, Bentonville, Va., serves as example. He writes: "I had Bronchitis for three years and doctored all the time without being benefited. Then I began taking Dr. King's New Discovery, and a few bottles wholly cured me." Equally effective in curing all Lung and Throat troubles, Consumption, Pneumonia and Grip. Guaranteed by all druggists. Trial bottles free, regular sizes 50c. and \$1.00.

**PARTRIDGE-OLIVER**—In Louisville, on Wednesday, December 14, Mr. M. F. Partridge, of Powellton, Ind., and Miss Ella Oliver, of this city, were married by Rev. E. L. Powell, D. D.

### CAPTURED MOONSHINE STILL.

General Deputy Collector Chas. O. Reynolds, assisted by Special Deputies J. W. Barlow and Geo. L. Barnes, on Wednesday, captured the famous moonshine still, known as "Big Still," located in Larue county.

The distillery was located under a big hill and was able to produce a barrel of whisky per day. The house was 20x20 feet. The posse also destroyed a large quantity of whisky, beer and mash, as well as the still and building in which it was used.

This is the most important capture in a long time.

Ordinary household accidents have no terrors when there's a bottle of Dr. Thomas' Electric Oil in the medicine chest. Heals burns, cuts, bruises, sprains. Instant relief.

### BAD FIRE IN PRISON CHAIR FACTORY.

At 11:10 yesterday morning, an alarm from box 24, called the department to the Prison where a bad fire had broken out in the drying room of the Chair Factory. The drying room was completely gutted and the adjoining Chair Factory was considerably damaged.

The fire was a hard one to fight, but was finally gotten under control about 12:15 o'clock.

The damage was pretty heavy, though largely covered by insurance.

### CHRISTMAS DINNER.

The donations for the Christmas dinner are coming in rather slow. Please don't forget the collection boxes in the different stores and Capital Hotel.

Please send in your donations or promises to the Captain, as he is sick and unable to call. Please help to make this dinner a grand success.

Yours for the poor,

Can anything be worse than to feel that every minute will be your last? Such was the experience of Mrs. S. H. Nowson, Decatur, Ala. "For three years," she writes, "I endured insufferable pain from indigestion, stomach and bowel trouble. Death seemed inevitable when doctors and all remedies failed. ### "DO IT TO-DAY."

The time-worn injunction, "Never put off 'till to-morrow what you can do to-day," is now generally presented in this form: "Do it to-day!" That is the terse advice we want to give you about that hacking cough or deodorizing cold with which you have been struggling for several days, perhaps weeks. Take some reliable remedy for it to-day—and let that remedy be Dr. Boesche's German Syrup, which has been in use for over thirty-five years. A few doses of it will undoubtedly relieve your cough or cold, and its continued use for a few days will cure you completely. No matter how deep-seated your cough, even if dread consumption has attacked your lungs, German Syrup will surely effect a cure—as it has done before in thousands of apparently hopeless cases of lung trouble. New trial bottles, 25c; regular size, 75c. At all druggists.

### A BIG MISTAKE.

The Board of Education, on Monday night, abolished corporal punishment in the schools of this city.

We regard this as a big mistake. While the large majority of school children can be managed without it, there are some who can not, and to forbid it altogether is a mistaken kindness.

### SAD ENDING OF BRIGHT YOUNG LIFE.

News has been received in this city that Miss Mary Cable Starling, second daughter of Mr. Chas. H. Starling, of Greenville, Miss., was accidentally burned so badly on the night of Friday, December 9, that she died the next day.

The particulars of the sad event are about these: Miss Starling, who was a bright young school girl, had taken a lamp to her room to study by, and placed it on a table. By some means she struck the lower part of the lamp and broke it, letting the oil out, which immediately exploded, throwing the burning oil over the young lady, with the result above.

She was a sweet and lovable girl, aged 17 years. She was a niece of Mrs. R. P. Pepper, of this city.

To the bereft family we extend our earnest sympathy.

### ASSESSOR REMOVED.

Tightly Locked From Nervous Spasms.

Physicians Could Not Prevent Fits.

Dr. Miles' Nerve Cure My Wife.

Dr. Miles' Nerve Cure has been successfully tried in thousands of cases of nervous disorders, but never has it made a better record than when used in the treatment of fits or spasms. Thousands of testimonials prove this, and in nearly every instance the writer has stated that the fits ceased after the first dose of Nerve Cure was given. The statement is repeated in the following:

"Seven years ago my wife commenced having spasms or fits and I called in my home physician and he said she was paralyzed. He rubbed her with salt water and gave her calomel and she eventually got some better, but in a short time she had another attack. She was confined to her bed for three months and the doctor could not help her. She had fits frequently, some times very severe. Her hands would cramp so we could not open them and she finally got so her jaws would become locked. Finally I saw the doctor was doing her no good and ordered a bottle of Dr. Miles' Restorative Nerve. She received so much benefit from the first bottle that I got some more. She has taken a number of bottles but has never had a fit since taking the first dose. She also thinks very highly of Dr. Miles' Nerve and Liver Pills and is never without them. If there is any way of making this testimonial stronger do so because of the good the Dr. Miles' Restorative Nerve did my wife."—WM. V. ALLEN, P. M., Elkville, Miss.

## SOUTHERN MEN TEACH THE NATION HOW TO FARM.

(By Frank Waldo, Ph. D.)

We have been so long accustomed to look to northern writers for our best educational books that it is decidedly a cause for satisfaction to have our own authors sought for by the leading publishers of school books. But the recent book lists do show that southern authors are contributing more and more to the broad national educational literature.

A late addition to the school books which are the product of southern brains is a volume on agriculture by Professors Burkett, Stevens and Hill, of the North Carolina College of Agriculture and Mechanic Arts. It may seem remarkable to some that the South, which is supposed to know how to produce but a few staple crops, that are particularly suited to its climate and soil, should be called upon to instruct the whole nation, including the great northern belt with its much vaunted diversified farming. But the excellence of southern farming is more widely recognized than we have realized. It was not very long ago that a northern farming expert was heard to remark that the best farm journal in the country, both in manner and appearance, is published in the South and its contributors are southern men.

We do not know how it was that Ginn and Company, the Boston school book publishers, came to select these North Carolina professors to write this new book on agriculture, but it is admitted on all sides, north, south, east and west, that they have succeeded in giving the main principles of agriculture in a nut-shell. They have given such a combination of scientific and practical knowledge of agriculture as has never before been brought within such a small compass.

The book is called "Agriculture for Beginners," and while simple enough for a youth to comprehend, yet it is packed full of information of value to the practical farmer. Every boy on a farm or plantation should read the book; and if his big brother, or father, or uncle gets the copy into his hands, he, too, will find it mighty interesting reading. The practical farmer who has done some deep thinking about the how and the results of farming will find on every page of this handbook explanations of the why. In reading this little book the old farmer will exclaim time and again: "Well, that explains it. I never knew just how it was before."

This book will interest every farmer's boy in his work, and will give him new ideas enough to last him a lifetime. It will start the young farmer to thinking for himself, and offers sprouts of information, which, if followed up, will grow into trees of knowledge.

Not only is the reading matter clear, concise and explanatory, but the beautiful illustrations are so apt and suggestive that there is not much to hope for in the country boy, or man either, who fails to receive inspiration from them.

This book tells first about soil—the various kinds, how they originated, and how they may be improved. Next is taken up the relation of the soil to the plant and how the former supplies food to the plant roots. Then follows a description of the action of the plant above ground and its relation to its environment.

This includes the manner in which plants feed on air, how the sap flows, and how plants are propagated.

Under the subject of fruit trees, grafting, budding, planting and pruning are fully treated.

But perhaps the most interestingly useful sections are those treating of the diseases of plants, and insects that are found in the orchard, garden and field. Farm Crops, Domestic Animals, Farm Dairying and the general life in the country complete the book, which all in all is the most charming volume that has appeared on agriculture, and withal it is authoritative and up to date in its information and methods.

## SCIENTIFIC MISCELLANY.

The new science of "psycho-mechanics" has received attention in France from Dr. Charles Fere. He finds that a man has a greater capacity for average than for either intense or feeble work, and that one's powers vary greatly with mental conditions. Contrary to general belief, mental work does not rest one physically tired, or vice versa. Capacity for work increases to a certain degree with heating of the head; light has a stimulating action and darkness depresses; even colors have influence, while sounds have a complex and variable effect; and odor and taste stimulate and then depress to a greater degree. Digestion diminishes muscular work. Most nerve-poisons—opium, hashish, valerian, alcohol, tobacco, coffee, tea, etc.—produce transitory stimulation, which is followed by depression, diminishing the total work.

The perspectartigraph of Otto Eichenberger, of Geneva, is claimed to make accurate perspective easy for the amateur artist. A folding box opens to form a table, and near the top of its extensible sides a telescope is so mounted that as it is moved about, in following the details of any view a pencil is made to draw a corresponding line on a sheet of paper. Crossed hairs in the telescope gives precision, while the pencil is kept upon the paper by sliding in a suitable holder. Beautiful drawings are made with little practice, and work exhibited includes a panorama of the Alps and a view of Geneva.

Gums are a botanical puzzle. Dr. Creig Smith, of Sydney, has now shown that some are due to bacteria, and he has isolated some species—like that of "arabin"—and made them produce their gums in the laboratory. He suggests that all other gums are bacterial products, and that the world's supply might be increased by judicious selection of susceptible trees.

Human heads are characterized by potassic hair, silicic hair and sodic hair in the classification of J. Gaube, a French chemist. He finds blonde hair to contain much soda and much silica; red hair to be very rich in silica; and black hair to have a great deal of potassium, but little soda and scarcely any silica.

A curious motor—not likely to be put to practical use—has been devised by M. Lebover, a French experimenter. After careful search he has discovered a stone—called the domite of Auvergne—in which water rises by capillary attraction to a height of four inches. Placing two sheets of this stone vertically in a basin of water, he suspends from them pieces of salt-peter-soaked fungus, and beneath this puts a little wheel with blotting-paper paddles. As the water passes from the stone to the fungus, the latter wets the blotting-paper on one side of the wheel, causing that side to fall. Evaporation then lightens the lower part of the wheel while another portion is made heavy by wetting, rotation being thus set up, the rate varying with the state of the atmosphere.

An attempt to give scientific expression to the degree of agreeableness of a climate is being made by Capt. W. F. Tyler, F. R. Met. Soc. of London. Concluding that our sensations are chiefly influenced by temperature and humidity, he has coined the word "hygro" to indicate the joint effect, and represents a perfectly pleasant day as 0 on the hygro scale and an intolerably oppressive one as 10. He has succeeded in getting ten persons to make observations through one month. The results indicate that other factors—possibly barometric pressure and electric conditions—have appreciable influence upon sensation, and that much training of observers will be needed before trustworthy records can be made.

In the electrical bleaching of flour by the latest patented process of J. N. Alsop, the apparatus consists of two are lamps in parallel, with a coil yielding an 18-inch arc. The arcs are enclosed by tubes, and the air in these is electrified, producing a gaseous mixture containing nitrogen peroxide and traces of ozone. The gas is drawn off into a revolving hexagonal drum, where it is thoroughly incorporated with the flour. The treatment not only bleaches and purifies, but is claimed to add to the nutritive quality, analysis showing increased nitrogen.

The case of a healthy man of 61 whose heart beats only 30 times a minute, the normal rate being from 70 to 80, has been recorded by Dr. Seiffert, of Berlin. In another case reported, the beats numbered only 22, but the patient was suffering from heart disease.

In a new Hungarian washing machine, electrified water, it is claimed, removes all spots and dirt from 800 garments in less than fifteen minutes, no soap being used.

"Itching hemorrhoids were the plague of my life. Was almost wild. Doan's Ointment cured me quickly and permanently, after doctors had failed." C. F. Cornwell, Valley Street, Saugerties, N. Y.

## MYRA KELLY'S OWN EXPERIENCES.

Myra Kelly, whose stories which appeared in McClure's Magazine during the last year, have been made into a book bearing the title "Little Citizens," drew upon her own actual experiences for the material of her amusing tales. She was for over two years a teacher in a school on East Broadway, right in the heart of the most foreign section of New York. She is an Irish woman, born in Dublin, of pure Irish stock; and the natural Irish turn of mind towards fun made her express the humorous side of her experience. There has been a serious turn to some of the reviews of her book. They have gone so far as to say that "it should be on the desk of every one interested in education to-day." Miss Kelly declares that she aimed to be amusing, rather than instructive, and it both flatters and surprises her to find that her book has so serious an import.

Offered by the Henderson Route Between Louisville and St. Louis.

Commencing Sunday, June 12, Kentucky's popular line, the Henderson Route will inaugurate a new and Fast Day service between Louisville and St. Louis in each direction, and will improve the equipment generally of all trains between these points.

Three daily trains will operate in each direction on the following safe schedules between Louisville and St. Louis: 8:30 a. m., 10:30 a. m., and 7:00 p. m. Leave Louisville 8:30 a. m., 10:30 a. m., and 7:00 p. m. Arrive St. Louis 6:16 p. m., 7:30 a. m., and 6:16 p. m.

The equipment is brand new (from the shops), of the most modern vestibule pattern and is as good as any train operating in or out of Kentucky.

The 8:30 a. m. train, through without change of cars, will be composed of Pullman Observation Parlor Cars, Free Reclining Chair Cars, Dining Cars and high back seat passenger coaches.

The 9:30 a. m. train, through without change of cars, will consist of Pullman Sleeping Cars, Free Reclining Chair Cars and high back seat passenger coaches.

The 7:00 a. m. train will have Parlor Dining Cars and high back seat passenger coaches.

The Dining Cars will serve meals in a comfortable way only for what you get.

All trains will leave from and arrive in the Seventh Street Union Depot, Louisville, and will depart from the Union Station, St. Louis.

In purchasing tickets to St. Louis or to points west, ask the agent for tickets to St. Louis and the Henderson Route will have them in stock and will be glad to ticket you that way.

You will be satisfied in every respect with the second-class service and safe train service that is offered by this line, which has been termed the Official Route for Kentuckians.

### CLOSE CALL.

On Wednesday night, Col. Jas. A. Scott and Hon. Eli H. Brown were crossing the St. Clair street bridge, in a buggy, when a street car came rapidly up behind them and a large coal wagon was coming down the incline in front, when the team attached to the wagon lost control of it, and the wagon slid on the icy bridge until it caught and overturned the buggy.

Luckily both the gentlemen jumped from the buggy and caught the horse thus escaping serious injury.

The buggy was somewhat scarred, but otherwise uninjured. It was a close call.

## BEWARE OF COUNTERFEITS.

"DeWitt's is the only genuine Witch Hazel Salve," writes J. L. Tucker, of Centre, Ala. "I have used it in my family for Piles, Cuts and Burns for years and can recommend it to be the best salve on the market. Every family should keep it, as it is an invaluable household remedy, and should always be kept on hand for immediate use." Mrs. Samuel Gage, of North Bush, N. Y., says: "I had a fever sore on my ankle for twelve years that the doctors could not cure. All salves and blood remedies proved worthless. I could not walk for over two years. Finally I was persuaded to try DeWitt's Witch Hazel Salve, which has completely cured me. It is a wonderful relief." DeWitt's Witch Hazel Salve cures without leaving a scar. Sold by J. W. Gayle.

Have doctored with local physicians and also at Chicago, and even went to Norway with hopes of getting some relief, but Kodol Dyspepsia Cure is the only remedy that has done me any good, and I heartily recommend it. ## REAL WINTER.

At 5:30 o'clock, on Saturday  
morning, real winter took hold of  
things here, and snow fell for sev-  
eral hours, reaching a depth of  
some two inches or more. But  
about 1 o'clock p. m. it com-  
menced to melt and nearly all dis-  
appeared from our streets. At  
night it turned colder and Sunday  
was fair and quite cold. Sunday  
night it clouded up again and  
snow fell in desultory way, but  
not sufficient to make much of a  
show on the ground.

## CLIMATIC CURES.

The influence of climatic con-  
ditions in the cure of consumption  
is very much overdrawn. The  
poor patient and the rich patient  
can do much better at home by  
proper attention to food digestion,  
and a regular use of German Syrup.  
Free expectoration in the morning  
is made certain by German Syrup,  
so is a good night's rest and the  
absence of that weakening cough  
and debilitating night sweat. Rest-  
less nights and the exhaustion due  
to coughing, the greatest danger  
and dread of the consumptive, can  
be prevented or stopped by taking  
German Syrup liberally and regu-  
larly. Should you be able to go to  
a warmer climate, you will find that  
of the thousands of consumptives  
there, the few who are benefited  
and regain strength are those that  
use German Syrup. Trial bottle,  
25c; regular size, 75c. At all drug-  
lists. 1 yr.

## GOOD SPIRITS.

Good spirits don't all come from  
Kentucky. Their main source is  
the liver—and all the fine spirits  
ever made in the Blue Grass State  
could not remedy a bad liver or the  
hundred-and-one ill effects it pro-  
duces. You can't have good spirits  
and a bad liver at the same time.  
Your liver must be in fine condi-  
tion if you are to feel buoyant,  
happy and hopeful, bright of eye,  
light of step, vigorous and success-  
ful in your pursuits. You can put  
your liver in fine condition by using  
Green's August Flower—the great-  
est of all medicines for the liver  
and stomach and a certain cure for  
dyspepsia or indigestion. It has  
been a favorite household remedy  
for over thirty-five years. August  
Flower will make your liver healthy  
and active and thus insure you a  
liberal supply of "good spirits." 75c.  
At all druggists. 1 yr.

Lagle, proprietor of barber shop  
near the depot, says: "For some  
four or five years, I hardly knew  
what it was to be free from an  
aching back, and the irregular  
action of the kidneys at the same  
time, caused other symptoms,  
which were very annoying and  
distressing. Although I tried  
different remedies I was unable  
to find anything that would do  
me any permanent good until I  
learned of Doan's Kidney Pills  
and procured a box at J. W.  
Gayle's drug store. I had taken  
but a few doses of this good prepa-  
ration when I realized I was re-  
gaining my health, and, on a con-  
tinuation of the treatment, I  
found my condition so much im-  
proved as to be almost beyond  
belief. For all of this I owe my  
thanks to Doan's Kidney Pills."  
For sale by all dealers. Price  
50 cents. Foster-Milburn Co.,  
Buffalo, New York, sole agents  
or the United States. Remember  
the name—Doan's—and take no  
other.

## OUR MOTTO: "GRADE HIGH." "PRICES LOW."

We mean just what we say—"High Quality—Low Prices."  
Some people think that a good article can not be had for a low price—that, if  
they pay a good price they are always sure of a good article.  
That is wrong. Sometimes merchants cut the price on excellent goods be-  
low cost just to get people into the store—they lose money to make trade.  
That is the case when we offer Glenmore Whisky at \$2.00 per gallon.
